

The Gauges

Gauges are used to determine the air pressure of a Dunnage bag.
For higher level Dunnage bags, Gauges can greatly simplify the inflation process.

The Pencile Gauge

- * Enables the user to manually check the air pressure to prevent Over-Inflation.
- * Easy to screw onto our 'Cylinder' or 'Monster' Air guns.
- * Made from strong metal.

The Digital Gauge

- * Check air pressure with a push of a button.
- * Starts recording at 2 PSI / 0.13 BAR.
- * Easy to handle and Long -lasting.
- * Made from hard plastics.
- * Easy to screw onto our 'Monster' Air guns.
